

This Volume contains the replies to our Invitation to Comment, except two submissions which we were not permitted to publish. We are grateful to each of the respondents for the quality of the submissions and applaud their effort to enhance Canada's capital markets .

The views expressed within the letters, emails and presentations do not necessarily reflect the views of the Task Force. The recommendations of the Task Force will be found in its Final Report, *Canada Steps Up*.

The submissions and presentations comprising this volume are made available here only in the language in which they were submitted.

## Foreword

### Written Submissions and Presentations

Given the defined goal of recommending revisions to Canadian securities legislation to achieve a dynamic, fair, efficient and competitive capital market, the Task Force to Modernize Securities Legislation in Canada was instructed to seek the best thinking in Canada and worldwide as to what might contribute to a sound and responsive capital market fully capable of meeting the future head on. In developing their recommendations, the Task Force believed that it was important to solicit the views of the full gamut of industry stakeholders as to ways in which modernization of securities regulation and enhancement of the competitiveness of Canada's capital markets might be achieved.

*Canada Steps Up*, the final report of the Task Force, and the recommendations contained within are based on input and consultation with leaders in government, industry, the regulatory community and academia. The submissions contained in this Volume are an important part of the public input which contributed to the Task Force's deliberations.
